

INDICATIONS

FourHyal Plus from the INNODROPS line, is a Medical Device for ophthalmic application consisting of a sterile, viscous, slightly hypotonic saline solution, physiological pH, preservative-free, phosphate free, based on hyaluronic acid and Hamamelis distilled water.

The high concentration of Hyaluronic Acid gives the eye increased hydration and, in case of tear film alteration, restores its balance.

FourHyal Plus is indicated to protect and moisturize the ocular surface in case of redness, burning and eye fatigue due to:

- dry eye syndrome,
- environmental stress (dust, allergens, smoke, air conditioning, environmental pollution),
- visual stress due to prolonged use of electronic devices (computers, television, video terminals), intense study and prolonged driving.

FourHyal Plus is a refreshing solution studied for people suffering of occasional dry eye or lack of tearing. It gives prompt relief and restores the daily wellness. **FourHyal Plus** can be instilled before the application and during the use of contact lenses to improve application and comfort.

INSTRUCTION FOR USE

1. Open the protective foil pouch
2. Carefully clean hands before the use
3. Separate the single-dose vial from the strip and open it by twisting the cap
4. Gently press the single-dose vial and instill 1/2 drops per eye
5. After the instillation, close the vial and reuse the residue solution within 12 hours
6. Store the unused vials in their original package
7. The product is single patient to avoid possible contamination
8. The product can be used with contact lenses

**FREQUENCY OF USE**

Instill 1-2 drops per eye, 2-3 times a day or according to the doctor's opinion.

COMPOSITION

Hyaluronic acid 0,4%, Hamamelis Virginia distilled water, sodium chloride, sodium citrate tribasic dihydrate, citric acid monohydrate, purified water.
